

Closed loans report

This report contains a history of your closed loan accounts, so closing an account won't automatically erase it from your loan records. When you close an account, the account status on your credit report is simply updated to show that the account has been closed.

To download closed loans report, click on green xls sign on the same line with the closed loans report. After clicking on the report the pop-up window appears:

- Specify the start date
- Specify the end date
- Specify the currency
- Specify the branch
- Specify the user
- Then click on "Submit" to generate the report.
